## About the Center

The Center is the foremost organization in America for exploring the intersection of America's history and culture with its railroad art and culture. It is a nonprofit arts and educational organization that preserves and presents significant images of railroading, interpreting them in print, on the Internet, and in exhibitions, conferences, and an annual contest whose winners' works are, in part, displayed and published. With the help of the Special Collections section of the Lake Forest College Library, the Center maintains a growing archive of nearly a quarter-million railroad images.
